

FemTech Association Asia

The gateway to the femtech industry in Asia.

Launched in October 2021, FemTech Association Asia is the region's first and largest specialist advisory and industry network for founders, professionals, investors, corporate partner and ecosystem-builders uniting with the core focus on improving women's health through technology solutions. We currently represent 80+ FemTech companies across ten countries in Asia.

With a focus on advisory, thought leadership, programming, amplification and community-building, our vision is available, accessible and affordable for every woman in Asia.
